

# Which technology fits your teaching style?

You now have an opportunity to take a “test drive” on the items shown below.

## Hitachi Starboard Panel

Functions like a monitor -hooked to LCD projector- writes notes that can be projected to whiteboard, saved to computer, annotated with color, very visual w/colors, captures handwriting, good for instructors who want to save board notes to distribute or re-use. Pretty intuitive learning.

## Starboard Bluetooth Freedom Tablet

This is a lightweight, portable presentation device that's an accessory for the Starboard Panel. It is used to annotate presentations and run computer applications in meetings rooms and classrooms while moving about in the room.

## Document Display Magnifier

Magnifier which connects to LCD projector and shows objects or documents and captures the display onto hard drive. No preparation of materials needed; portable; easy to use; good for magnifying paper and technical parts/tools.

## Mimio

Small portable tool which attaches to any whiteboard or easel and captures notes written with special mimeo pens. Can be connected at a later time to computer for download or can function with computer and projector to project and annotate. Similar outcome as Starboard or Polyvision but less expensive and portable. Includes audio for connecting lecture to board notes. Instructor stands at board or easel.

## Tablet laptop

Laptop with moveable top which turns into a writing area. Captures handwritten notes and turns into text. Allows annotation in colors. Connect to a LCD projector to use in classroom setting. Portable; Instructor can capture notes projected onto screen and annotate; same functionality as Starboard.

## And Much More...

- Digital Video Recorder
- MP3 Player
- Audio Sound System
- Digital Video Camera
- 27" Flat Screen Close Caption TV & DVD/VHS Player on a Cart

The UDL Project can demo  
and loan you the tool to try in your classroom  
for a few weeks.

If interested call Cathy Jenner (5639) or  
Cheryl Culwell (5724) or Eric Depusoy (5702)  
to take a “test drive.”
